

You need a PAIRING code

Your child(ren) can generate a code through Canvas (not the mobile app). They must click "OK" to activate the code. It will be usable for 7 days. The code is case-sensitive.

Create Your Account

1. Visit your school's URL.
2. You may have to use <https://bibb.instructure.com/login/canvas>
2. (OR) Download the Canvas Parent app and create your account there.

Remind Communication Platform

The Bibb County School District uses the Remind platform as a school communication tool for teachers, parents and administrators in all District schools.

PARENTS

Update your contact information in [Parent Portal](#) to receive messages and notifications from Bibb County School District and your child's school. Make sure to put your cell phone number in the "Other" category in Parent Portal. Remind uses cell phone numbers listed in the "Other" category to contact parents. Once your information is updated in Parent Portal, you should begin receiving messages from your child's school as soon as the next message is sent.

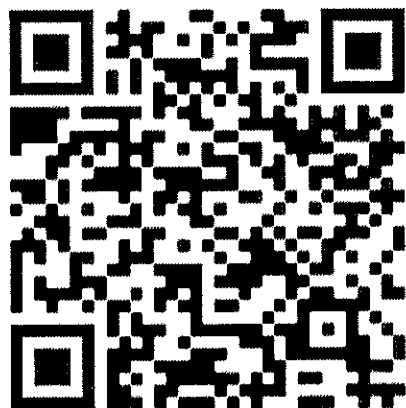

Take the next step and [download the Remind app to your phone](#) by searching for "Remind" in the Apple store or Google store.

Missing messages? Sometimes parents may only be receiving messages from one teacher and missing messages from the school. This could be a sign that the parent has more than one Remind account. [CLICK HERE](#) for instructions on merging accounts.

How can I receive messages in another language? <https://help.remind.com/hc/en-us/articles/360056731312>

Need to opt out of messages from Remind? [CLICK HERE](#) for instructions on how to opt out of messages. Remember, if you opt out you will miss important messages and notifications from Bibb County School District and your child's school.

Need more help? Visit the Remind Help Center here: <https://help.remind.com/hc/en-us>
